Under the powers vested in him by sections 26 and 31 of the Madras Forest Act V of 1892, His Excellency the Governor in Council is pleased to make the following rules to regulate the management of the Forest and waste lands in Agraham Valerandi estate. These rules are subject to all rights now legally vested in individuals and communities:—

(b) Unreserved land.

II. Reserved land includes all lands notified under the next following rule III. All other land at the disposal of the estate is "unreserved land."

III. Subject to the sanction of the Board of Revenue, the Collector may, by order in writing to be duly notified in the District Gazette, select any area within the said estate and may constitute it "reserved land." Upon the lands of any such area being notified in the District Gazette, it shall be unlawful for any person to fell, remove, girdle, mark, lop, top, uproot, burn or strip off the bark or leaves from or otherwise damage any tree within such area or use, injure or remove any forest produce found thereon unless he is authorized to do so by the registered holder of the rights or by some one duly authorized by him to grant such permission.

IV. On reserved lands no fresh clearing shall be made for cultivation or for any other purpose unless a plan or lease has first been obtained from the Forest Officer. The Forest Officer is also authorized to lease out any "reserved land" for such periods and subject to such conditions as he may consider necessary.

V. On all unreserved lands in any village the grazing of cattle, the cutting of grass, the collection of dry wood, thorns, leaves of trees and shrubs that are not reserved, and the felling of trees other than those included in the list of reserved trees, will be permitted free of charge, provided that the grass, wood, thorns, leaves or bark are required by the inhabitants of that or of neighbouring villages for agricultural or domestic purposes. Heads of villages will be held responsible for seeing that the above privileges are not abused and in case of disputes the Collector will decide which are the neighbouring villages within the meaning of this rule.

VI. The Collector may, by order in writing to be duly notified in the District Gazette, select any area within the reserved lands, and may constitute that land or lands reserved or grazing grounds or may direct them to be placed under special fire protection. Upon the limits of any such area being notified in the District Gazette, it shall be unlawful for any person offically or negligently to set fire to any trees, thorns, grass or other forest produce or to kindle or to keep burning any fire or to graze cattle or to permit cattle to trespass within such area, except at such places and subject to such conditions as may be prescribed by the Collector by notification in the District Gazette.

VII. Trees of the following species are reserved trees, whenever found, whether upon reserved or unreserved lands, and such trees shall not otherwise be felled or otherwise interfered with except on permit given by the forest or other authorized officials of the estate on such conditions as may be notified from time to time by the Collector in the District Gazette.

REVENUE NOTIFICATION.

NOTIFICATION.

The undermentioned rules for the disposal of assessed waste lands and lands already held on conditional patta in the villages embraced by the Velgode project are published for general information.

Rule I.—A list of assessed waste lands proposed for irrigation under the Velgode Project will be maintained in each of the Taluk offices of Wandikothur, Soodyal and Sreev.

Rule II.—Such lands will be disposed of under the ordinary darkest rules subject to the following modifications:—

(a) The maximum extent which may be assigned to any one individual will be 50 acres. In cases where sub-divisions are necessary, the maximum will be 5 acres and the year share of an adjoining pattadar will be restricted to one such sub-division.

(b) The lands so assigned will for the present be liable to the assessment noted in the notification regular. As soon, however, as water is made available for irrigation, one-half of the extent assigned will be registered as wet and water-rate will be charged on this extent according to the rates in force at the time. The water rate, however, will be reduced to quarter, half and three-fourths of the full water-rate during the first, second and third year, respectively. The scale of reduced water-rate in the first three years will apply to further extents requested as wet from time to time. The years after irrigation has become available the whole area assigned will be registered as wet and be subject to full wet rates. The concession of reduced water-rates for the first three years will also be allowed in respect of patta for lands converted into wet of the current season.

Rule III. (i) The patta granted will, for the present, be conditional, the condition to be specified in the patta being—

(a) That as much, if any, of the land which may be found to be required for the canal, its distribution, its satisfactory work, roads, village-works, dwelling houses or other communal purposes, and for encumbrance in line of patta or farm lands taken up for these purposes must be given up unconditionally at a month's notice, without claiming any compensation, whenever Government being the sole judge whether the lands are required for such purposes.

(b) The land will be resumed if the pattadar refuses, when water becomes available, to convert at once one-half of the land assigned, or, after ten years the whole of it to wet, as specified in rule II (i) above.

(c) That if the pattadar does not cultivate the land within two years of its grant or if he alienates the land or any portion of it by sale, gift or mortgage, without obtaining in writing the prior consent of the Revenue Divisional Office before a permanent patta is granted to him, the whole land will be liable to resumption.

(d) The conditional patta granted under the above rules will be converted into permanent ryotwari patta when the extent area assigned is registered as wet.

Rule IV.—All the conditions should be specified in detail in the order of assignment.

Rule V.—In disposing of the lands the rules of preference laid down in the darkest rules in Board's Standing Order No. 15 (B) will be followed with the following modifications, viz:—

(i) That all applications received up to the 1st of December 1913 will be considered for purposes of preference as received on wet and the same date.

(ii) That a conditional pattadar will be treated as a pattadar for purposes of preference for an adjacent land.

Rule VI.—Intention should be careful when considering applications from holders not to make any that they are persons who are likely to settle in the village containing the land applied for, and more land should not be given to them than they are likely to be able to bring into cultivation and to convert into wet under the above rules.

Rule VII.—When dealing with applications from outsiders care should be taken, as far as possible, to prefer men who appear to be genuine agriculturists persons of sound and solid financial means and capital, to persons who appear to be mere speculators.

Rule VIII.—Byes to whom conditional patta have already been granted for lands proposed for irrigation will be allowed to take new conditional patta under the above rules for lands already granted to them and will be given the first claim for such lands. If they desire to take them and if the lands held by them be not required for the canal, its distribution, its satisfactory work, etc., the notice should be reported for the notice of Government.
